IXL PSAT & SAT Prep Skill Plans

Guidance for PGCPS Families

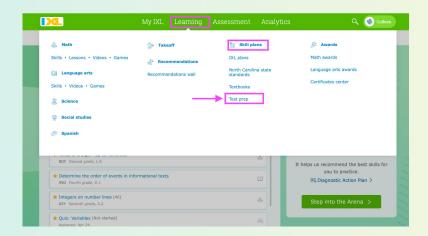

IXL OVERVIEW

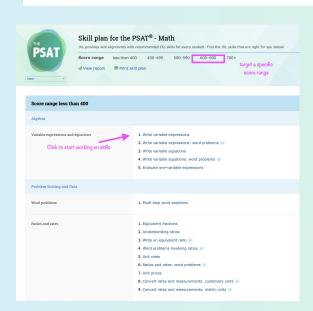

IXL is a personalized learning platform that your student has access to during the school year and during the summer for Math and Social Studies.

To get started, have your student login to IXL through Clever.

Then, click on Learning > Skill Plans > Test Prep.

Find the PSAT or SAT symbol and click into Math or create your own plan if you have previous PSAT or SAT scores.

PERSONALIZED SUPPORT FOR TESTING

The <u>PSAT Skill Plan</u> and SAT Skill Plans take the work out of your test prep and guide students directly to the skills they need for success.

Our plans include skills aligned to all topics covered on the PSAT and SAT exam.

Students can target a PSAT or SAT score range based on their learning needs and click directly into the aligned skills, building mastery at their own pace.

Students should work on skills until they reach a SmartScore of 80 or above.

CREATE A PERSONALIZED STUDY PLAN

Students can visit the PSAT or SAT study plan creation form and enter scores from a previous or practice test.

IXL will create an easy-to-use study plan for your child based on their previous scores.

Encourage your child to work on two skills every week from their personalized study plan.

Research shows that reaching proficiency (a SmartScore of 80) in at least two skills per week can boost test scores.

	Chart a clear path to success with a custom study plan	T based on your own scor	
PSAT	Enter your scores from a previous SAT or PSAT test (or practice test), and IXL will create an easy-to-use study plan just for you!
